I am a passed out trainees of The national Small Industries Corporation- Technical service centre, Howrah. This is a dynamic organization who can select, trained some interested entrepreneur and groom them such way that they can be able to establish their own industrial unit.

During 2015 I was selected by NSIC – TSC, Howrah for TWO YEAR training programme in FITTER. I was interested in FITTER from young age but due to unavailability of good platform couldn't started.

I had idea for manufacturing but due to lack of systematic training I couldn't do job. When I heard that NSIC is providing training on NCVT TRADES for TWO YEARS, I took admission in IT in 2015. I acquired maximum knowledge from this training on skill development as well as theory like documentation, accounts managements, manpower management.

After completion of training, I am more interested to do another course on FITTER so that I can expand my knowledge and earn a lot of money for the expenditure of my family. I am happy that I am groomed by NSIC for a successful career.

THE PRIDE FACTOR OF THE TRAINEE/ENTREPRENEUR GETS FROM NSIC(NTSC- HOWRAH):

I come from a middle class family who earns very little income after doing lot of hard work. When I completed my matriculation, I started thinking about building my career on a better path. In searching for better opportunities, I came across this highly experienced and govt. institute under ministry of MSME, NSIC, HOWRAH. I was very impressed by the teachers and officials for the brilliant exposure provided to me.

Now after I have completed my TRAINING, I have started DAS ENTERPRISE. I have learned many technical ideas in this institute which will help in building my career.

I want to thank Mr. Suresh Karmali, centre incharge & Mr. Palash Bhowmik, training incharge for their excellent support provided to me during training programme.

From child hood I was interested to become an RAC expert. This had happen only due to National small industries corporation limited which is an organization who is a training provider to the unemployed youth. This organization is authorized by the govt. of India, New Delhi as a nodal agency for providing industrial training in welding, fitter, surveyor, turner, draftsman-mechanical, machinist & electrician along with software and hardware courses like basics of computer, networking, CNC programming, etc. And vocational training for engineering students. The main intention for providing training is to generation of employment like self-employment and wage employment so that it helps in the burning problem of today.

I had taken admission in NSIC after advertisement seen in newspaper. I became a part of NSIC in 2017. I successfully completed training in RAC in 2017. After completion I got job offered by M/s SONA AIRCON, Kolkata at monthly salary Rs. **5500/-** .

I feel proud that am a part of NSIC-TSC, Howrah.

THE PRIDE FACTOR OF THE TRAINEE/ENTREPRENEUR GETS FROM NSIC(NTSC- HOWRAH):

I am a young girl who has to do the business in mind but due to lack of knowledge & confident I never came out with concrete solution. Suddenly I saw advertisement in local newspaper that NSIC is providing one month training in tailoring, I contacted NSIC office immediately. After interaction with NSIC staff I was happy that after completion of training I can do the business with support of NSIC.

I went to my house and after discussion with my family I took the admission in tailoring. After one month when I successfully completed the training, I had the confident and knowledge that I will open the tailoring shop.

After taking the admission in 2017 for one month training programme I learnt not about the technology, I also learn about the procedure for applying the loan, How to do the product marketing, How to approach the customer, documentation. I feel confident after completion of course from NSIC.

I feel proud that I am associated with NSIC and today I am my business small business due to NSIC Only.

It provides a big platform for the small and emerging entrepreneurs for their exposure and to explore a market for their product after establishing of their own unit. I can personally say that NSIC has helped me a lot to grow in time.

The training was excellent. NSIC provided me so much knowledge both practical and skill development that I planned to open my own unit for manufacturing of ladies wear like kurti, salbar along with teenager wear. During training NSIC provided me knowledge of accounting, management, marketing technique, book keeping record, manpower management.

Currently I am earning Rs. **2000-3000/-** per month due to platform provided by NSIC.

I was absolutely unmindful about today's very focused world when I had done my registration. It was absolutely dull with respect to vocation development for me. I was exceptionally befuddled about my future and inquiries like what to do now, which course to do, and so on were continued frequenting me day and night. At that point, one of my companions enlightened me concerning NSIC, HOWRAH. I went there and got some information about various courses. The NSIC official has legitimately guided me and cleared every one of my perplexities with respect to my inquiries.

At last, I have taken confirmation in incubation training for session 2017. It was an extraordinary turn for me. My life totally changed subsequent to taking confirmation. My entire contemplating my vocation enhanced a considerable measure. I was having an all the more wide extension for my vocation. I was thinking in more logical and consistent approach.

In the wake of finishing my superb two years, at long last I got started my business. Presently when I think back, I think NSIC has changed me from an extremely oblivious individual to all around qualified person.

I am informed by my daughter after attending the Entrepreneurship development programme at Balitikuri , howrah , organised by The National Small Scale Industries Corporation- Technical Services Centre, Howrah, a Government of India Enterprise that he is giving the training on tailoring. From past year I was thinking that how can I expand my husband business?

I got the golden opportunity to help my husband in enhancing the business. I had joined NSIC-TSC, Howrah in 2017 for one month training programme. Before the training I was thinking that faculty will train me only how to make male as well as female dresses.

I was surprised that he taught me about bank loan processing, manpower handling, Finance and accounting, Marketing Philosophy, Customer interaction technique. After passed out from NSIC I had started ladies wear product like kurta, Panjabi dress in existing Tailoring shop which was managed by my husband.

I can only say that NSIC is the platform where women makes economically independent. I feel proud that I am helping my family and enhance the existing business only due to NSIC.
